### Dental Hygiene/ Dental Therapy employment history:

Nov'19- Present	Dentistry @ Oceana Boulevard, So'ton	Dental Therapist	Weds, Thurs, fri & 2x Sat a month
Sep '19- Present	Ridgway Dental Practice, Wimbledon	Dental Hygienist	Tuesdays
Aug '19 – March '20	St Cross Dental Practice, Winchester	Dental Therapist	Fri mornings

I carry out a variety of different treatments on both adult and paediatric patients. For example, radiographs, root surface debridement, oral health education, pre formed metal crowns, pulpotomies, fissure sealants, Blacks classifications I – V restorations and primary extractions.

In addition to this; I also received whilst at University, General Dental Practitioner periodontal treatment referrals from local dental practices for patients with BPE 4. I have since graduation trained in tooth whitening and aim within the next year to train in facial aesthetics and attend composite bonding courses.

### DHDT at University

- Queen Alexandra Hospital (*Poswillo department placement*) - Paediatric extractions under GA
- Queen Alexandra Hospital (*Maxillofacial orthodontic department placement*) - Hygiene & debridement
- Gosport War Memorial Hospital (*Secondary care*) - Therapy treatment on anxious and disabled patients.
- Completed two-year primary research project aiming to improve homeless oral health
- Primary care patient clinic 2-3 days per week – paediatric, restorative & periodontal treatment

## Dental Nursing employment history:

Jan 2019 – Aug 2019	HDS Locums Limited, Hampshire	Dental Nurse	
Sep 2016- Dec 2019	111 NHS helpline, Portsmouth	Dental Nurse	Weekends/ bank holidays
Dec 2010-Sep 2016	SCiA Trafalgar, Hampshire	Dental Nurse	Full time

I have assisted over 60 DCPs, including dentists, therapists and specialists, making me very flexible with my working environment and adjusting to individual dental requirements.

My role included; charting, assisting the DCP, impression taking, using both R4 & SPE dental software and operating the reception desk. I am up to date on all relevant publications and policies, such as; CQC, HTM 01:05/07:01, IR(ME)R and radiographic local rules in connection with my role. In addition, I complete annual of cardiopulmonary resuscitation and defibrillator training. This has given me a very good insight into working within a busy environment and understanding the importance of working within specified time limits, to a high standard of accuracy for both NHS and private.

- Volunteered Dental Nurse for “Crisis at Christmas” charity working with homeless in London over Christmas 2018

## Interests:

I believe that it is important to lead a healthy, active lifestyle, which I maintain by having a wide range of hobbies, including horse riding, camping, and kayaking.

I enjoy photography; both in front and behind the camera; having photographed various portraits shoots and weddings, in addition to modelling for a variety of international brands.

I have a great love for the New Forest, after growing up on a farm. A huge passion of mine is art and sewing, which I studied prior to dentistry; After winning an award and gaining full distinctions for my final piece. I went on to exhibit my artwork in various UK galleries within my spare time.

One of the children i treated within DentAid's Cambodia trip
